Technical datasheet

Nonex EM 10/2 00+07 white FG

Article code: SBN0573300

General information									
Product group	Synthetic Belts								
Industry segment	Food: Fruit & vegetable, Confectionary & candy, Bakery								
Main product feature	Foodgrade, Oil & grease resistant								
Indication of use	Slider bed, Rollers, Flat								
Belt construction									
Tension layer	polyester, stable								
Number of plies	2								
Top side	material	naterial Nonex, PVC							
	finish	smooth, glossy							
	color	white							
Bottom side	material	Ropanol, PUR							
	finish	finish impregnated fabric							
	color	transparent							
Characteristics									
Food Grade (FG)	yes EC 1935/2004, EU 10/2011; FDA								
Antistatic (AS)	no								
High conductive (HC)	no								
ATEX approval	no								
Technical data									
Hardness	ISO 868		top side	65A Shore					
	130 808		top side	USA Shore					

Hardness	ISO 868	top side	65A	Shore		
Force at 1% elongation (static)	ISO 21181		10	N/mm	57.1	lbs/in.
Thickness	AB method KV.002	total	2.50	mm	0.1	in.
		top cover	0.70	mm	0.03	in.
Weight	AB method KV.004		2.8	kg/m²	0.57	lbs/ft²
Coefficient of friction	bottom against steel	dynamic	0.17			
		static	0.2			
Operating temperature	continuous	from / to	-15 / 80	°C	5 / 176	°F
	short	from / to	-15 / 100	°C	5 / 212	°F
Minimum pulley diameter	flexing		40	mm	1.57	in.
	backflexing		80	mm	3.15	in.
Manufacturing width	standard		2020	mm	79.53	in.
	maximum		3000	mm	118.11	in.

Fabrication

Hot splicing is always preferable. Glueing can only be done when the belt is exposed to normal temperature and the humidity is not excessive. For the working method, consult the splice information and the equipment literature. Apply the recommended splice as indicated in the seperate information.

Additional information

This sheet contains typical values, which apply to a temperature of approx. 20 °C (68 °F), unless otherwise stated, individual data may differ. We recommend to keep the belt tension to a practical working minimum to maximize the service life of the belt and machine parts. Always protect belts from sunlight/UV-radiation, avoid temperatures below 10°C and above 40°C, dust and dirt. Store belts in a cool and dry place and if possible in their original packaging.

For details consult 'Storage and handling instructions' or contact our specialist.
