**Technical datasheet** 

## NTS050 Red C37

Article code: ACCO000190										
General information										
Productgroup	Engineered belts, cover									
Industry segment	Wood: Panel board; Paper	Wood: Panel board; Paper & print; Building materials; Container & packaging								
Main product feature	Dusty environment, High g	Dusty environment, High grip, Oil & grease resistant, Wear resistant								
Cover type										
Material	NT									
Top finish	profiled									
Profile	C37 Supergrip profile									
Color	red									
Characteristics										
Food Grade (FG)	no									
Antistatic (AS)	no									
Oil & fat resistance	yes									
Wear resistance	good

## Fabrication

A belt cover material is applied to the substrate either by gluing, welding or vulcanizing. Depending of the method of applying the belt could be suitable for one running direction only. If this is the case, it will be indicated on the belt.

Contact Ammeraal Beltech to inquire what the fabrication options are for this specific cover type: gluing, welding, vulcanizing, grinding, perforations, milling and slotting.

## **Additional Information**

This sheet contains typical values, which apply to a temperature of approx. 20 °C (68 °F), unless otherwise stated, individual data may differ.

\* With the pulley factor of a specific cover material one can calculate the advised minimum pulley diameter.

Advised minimum pulley diameter = pulley factor × thickness (mm). For example of the pulley factor of a specific cover material = 20,

the thickness of that cover = 4 mm: In this case the advised minimum pulley diameter =  $20 \times 4 = 80$  mm.

Because of continuous development, the presented data is subject to alteration. This data replaces that included in previous publications. Ammeraal Beltech excludes any liability for the incorrect use of the above stated information. Subject to the general terms and conditions of sale and delivery, as applied by its operating companies, are all activities performed and services rendered by Ammeraal Beltech.
