Splice equipment	Only use equipment supplied or approved by Ammeraal Beltech.
------------------	--

Splicing on site	Always first make a test splice to confirm the right settings and proper pre-heating of the equipment.
------------------	--

Additional information

This sheet contains typical values, which apply to a temperature of approx. 20 °C (68 °F), unless otherwise stated, individual data may differ.

Keep the belt tension to a practical working minimum for maximum belt and machine life.

Always protect belts from sunlight/UV-radiation, avoid temperatures below 10°C and above 40°C, dust and dirt.
