Ammeraal Beltech's new belt concept

SAFE & CLEAN

NEW **SAFE & CLEAN** BELTS CONCEPT WITH AMMERAAL BELTECH

Food safety is more important than ever! As a leading producer of process and conveyor belts, particularly for the food industry, Ammeraal Beltech develops new generations of products and solutions focusing on hygiene – the cornerstone of your business. Confidence in food safety is paramount when choosing Ammeraal Beltech as belt supplier in the food industry.

The new modular belt, uni UCB (Ultra Clean Belt) and the homogeneous belt Soliflex PRO prove this. New belts are made within the **SAFE & CLEAN** concept with common target related to the highest levels of hygiene and cleanability.

SAFE

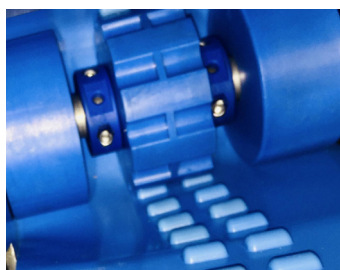

Ammeraal Beltech provides a Food Safety solution based on:

- safe products comply with international standards such as EC 1935/2004 and FDA
- belt design, colours and materials, that help you achieve your ISO 22000 requirements (previously HACCP).
- innovative solutions to avoid migration
- full belt material traceability records

CLEAN

Ammeraal Beltech provides cleanable belts:

- easy and fast cleaning of belts
- cleaning cost drastically reduced
- lowest amount of water, detergent and labour time required
- cleaning in motion possible
- control of cross contamination due to blue belt/food product

Ammeraal Beltech
member European
Hygienic Engineering
& Design Group

Food Grade belts comply
with EC 1935/2004
and FDA standards
supporting your
ISO 22000 requirements
(previously HACCP)

Ammeraal Beltech SAFE & CLEAN Reduces your Cleaning Costs

In your slaughterhouses operational costs will drop and the efficiency will improve drastically using the **SAFE & CLEAN** belt solutions: uni UCB and Soliflex PRO.

Both belts enable you to improve hygiene to a level never seen before. Resources needed to clean the belts are reduced – less water, less energy and less man-hours. uni UCB and Soliflex PRO are taking cleanability one step further.

uni UCB offers impressive performance as a light-weight belt; it's a competitive alternative to heavier and more expensive belts.

What's more, it's easy to operate, maintain and clean. In your production environment less water and cleaning chemicals are needed, meaning lower energy costs and CO2 footprint.

Soliflex PRO is a homogeneous belt without any fabric tension member.

Soliflex PRO combines the benefits of fabric based conveyor belts and modular belts into one unique self-tracking product. The smart concept enables easy cleaning which reduces your total cleaning costs.
