Ammeraal Beltech
Innovation & Service in Belting

No machine dismantling – Increase your production time

Infeed belt for Panel Board Production

Modern high performance wood processing machines produce large volumes of particle board, MDF, HDF, OSB and plywood. Leading OEMs and end users often choose Ammeraal Beltech belting solutions for reliable and safe processing.

The effectiveness of the *Ammeraal Beltech* infeed belt for conti-presses is based on the *ZipLink*® concept: the quickest splice method ever allows you to install a seamless belt without disassembling your machine, resulting in major increase of your production time and cost saving.

Ammeraal Beltech infeed belts are made of high quality polyester monofilament with a *Silam* silicone impregnation. The special design allows the belt to operate on small pulleys and knife edges.

Main features

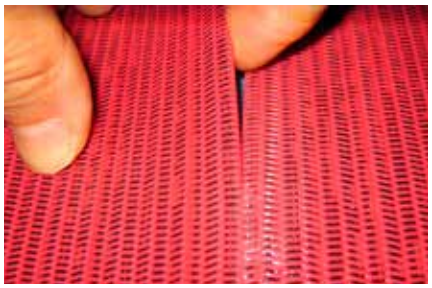
- Longitudinally flexible; suitable for small diameter transfer and knife edge
- Dimensionally stable; excellent tracking properties and perfectly flat
- Low friction bottomside
- Resistant against high temperatures
- Seamless

Benefits

- Quick installation or repair; shortest production downtime
- Smooth, economical operation; less energy consumption
- Long belt service life
- ATEX approved

Applications

- Infeed belt for conti-press
- Transfer belt



Technical data	
Belt type	**Silam EZP 8/1 0+01 red HR**
Article code	**583060**
Tension layer	*ZipLink*® mesh for easy and quick belt change
Belt thickness	0.08 in
Weight	0.36 lbs/ft²
Force at 1% elongation	46 lbs/in
Min. pulley diameter flexing / back flexing	0.24 / 0.40 in
Temperature range	-40 to +356°F
Max. standard / production width	122 / 158 in

Silam and ZipLink® are brandnames of Ammeraal Beltech
