Ammeraal Beltech

Smart Belting Solutions
AMMcare and AMMcare Connect

Innovation and Service in Belting
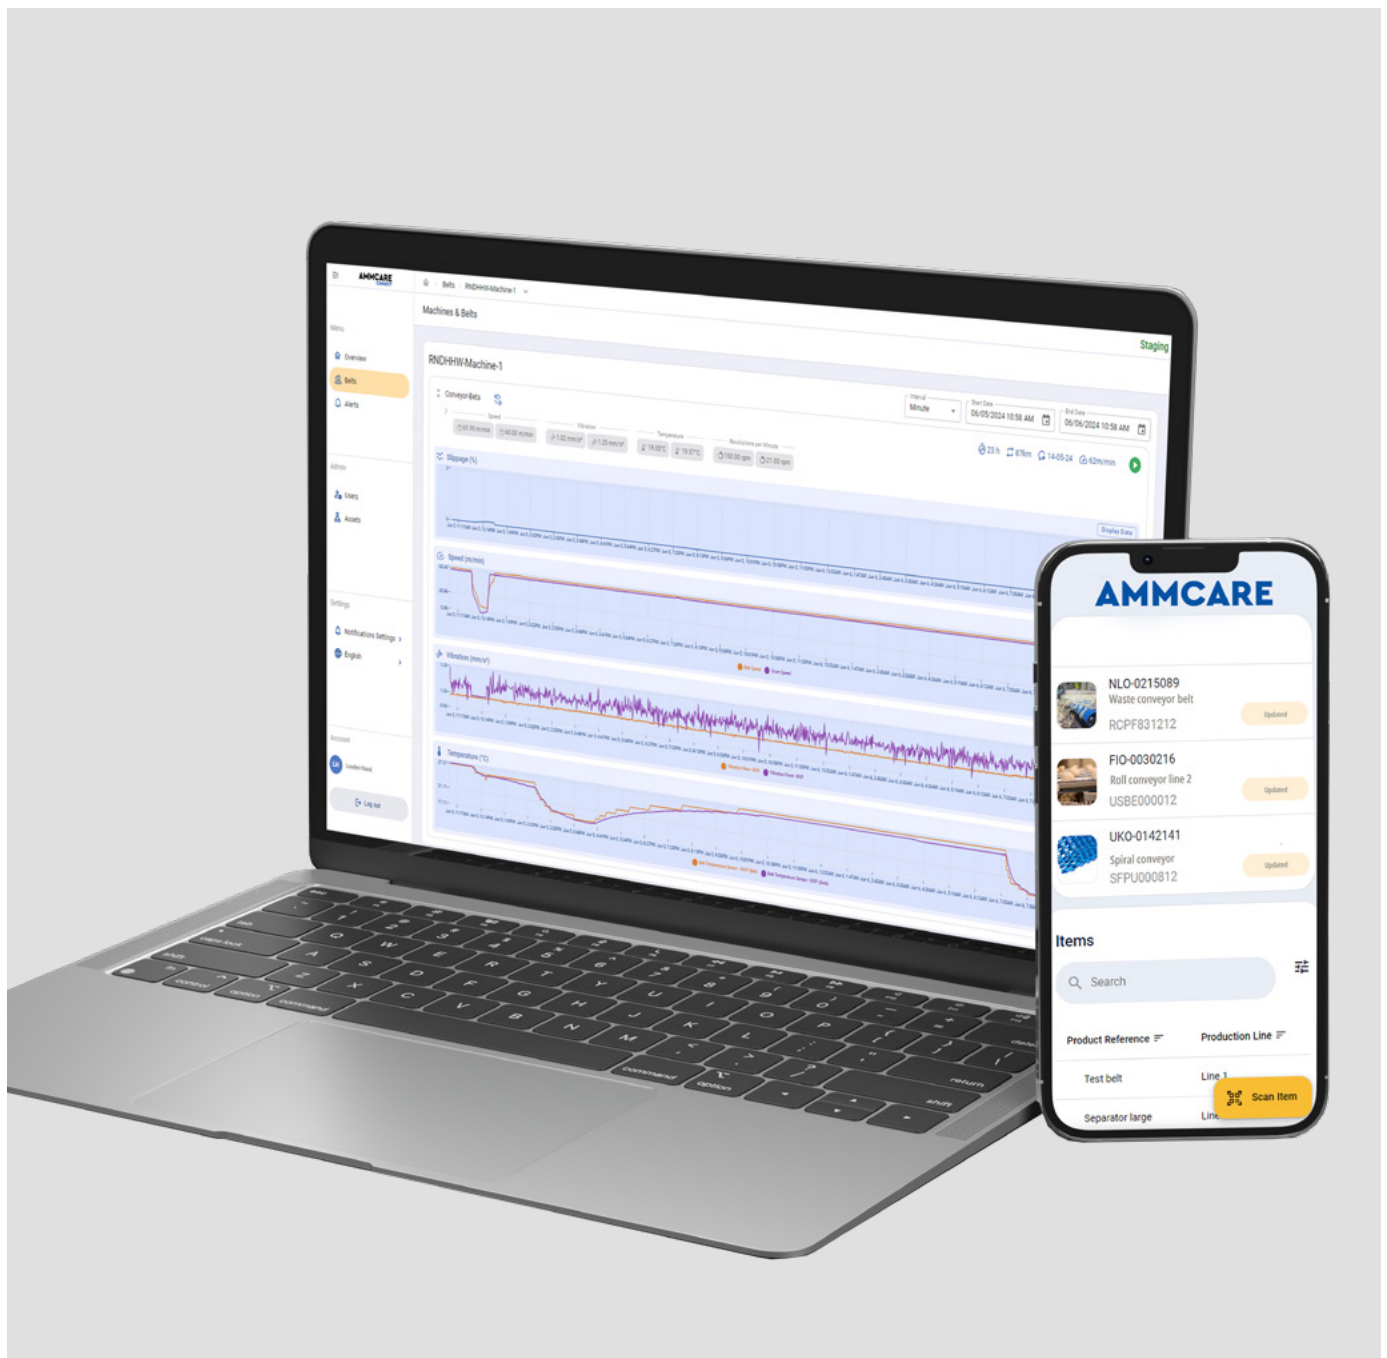

AMMcare – Belt Specifications with just one click

Have you ever struggled to find your belt specifications when a replacement was needed, or had difficulty quickly and accurately identifying the correct belt? With AMMcare, this is no longer an issue. AMMcare eliminates errors and saves valuable time through a single button press. Embrace this intelligent belting technology today.
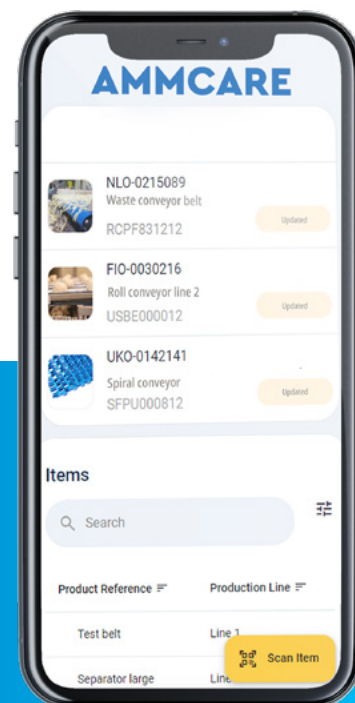

Scan the QR code and let AMMcare handle the rest:

✓ **Instant access** to technical datasheets, certifications, and belt specifications.

✓ **Clear and straightforward insight** into your conveyor belts' maintenance history.

✓ **Easy submission of inquiries or orders** for replacement belts. With AMMcare, this is no longer an issue.

✓ **Direct access** to your Ammeraal Beltech expert whenever you need support.

Experience enhanced efficiency and streamline your processes with our conveyor belt solution:

● Swiftly address issues with instant access to critical belt or system details, ensuring fast response times.

● Minimize ordering errors through pre-registered specifications and IDs.

● Easily identify the affected belt by scanning QR codes.

● Stay audit-ready with real-time access to current food safety declarations for every conveyor belt.

AMMcare Connect – Real-Time Conveyor Belt Monitoring

Have you ever missed a warning sign that something was wrong with your conveyor belt? High belt temperatures, unnoticed speed anomalies, or vibration issues? The consequences can include unplanned repairs, costly downtime, and additional expenses.

With AMMcare Connect, those risks become a thing of the past.

Our innovative solution with RFID chips and intelligent sensors delivers real-time conveyor belt monitoring to keep your production running smoothly:
