

# Sustainability only pays off if it can be sustained

Ammeraal introduces  
**AMMdurance**

- › Easy on the environment
- › Tough on wear and tear
- › Boosting your revenues

**ENERGY  
SAVING  
& LONGER  
BELT LIFE**

*Keep on Saving!*

# Reduced Friction = Energy Savings

## Introducing AMMdurance

Airports and logistics companies are facing growing pressure to reduce energy consumption and emissions.

Ammeraal Beltech developed a specially formulated dry fabric treatment that, when applied to the underside of our proven EX low-noise fabric, reduces friction between the belt and the underlying machinery. Less friction enables reduced power usage.

And so the industry's most energy-efficient belt was born: Ammeraal Beltech's AMMdurance.

### Choose AMMdurance for exceptional long-term results:

- Consistent energy savings
- Reduced ecological footprint
- Less contamination and belt shrinkage
- Longer belt life
- Minimised maintenance and downtime
- Superior savings and profitability over time

“

**The most energy-efficient conveyor belt on the market.**

# Where sustainability meets endurance

Contamination free = longer belt life

Unlike quick wearing/migrating coatings, which help reduce short-term friction but can act like a magnet attracting dirt, our special dry treatment in conjunction with EX fabrics, protects the belt's fabric, preventing contamination and subsequent shrinkage. In this way AMMDurance belts maintain an energy-efficient running condition for longer.

The result is superior long-term endurance combined with stable, long-lasting performance. *Because sustainability only pays off when it's sustained.*

**Ammeraal's AMMDurance belt, with its protective dry fabric treatment:**

**Other belt concepts with traditional quick wearing/migrating coatings:**

Quick wearing/migrating coatings attract dirt, grime and pollutants, causing belts to wear and shrink. This leads to higher energy consumption and shorter belt life.

## Technical data AMMDurance Belts

<b>Belt description</b>	Flexam EX 10/2 00+05 black M2 AS FR /AMD	Flexam EX 10/2 00+A32 black AS FR /AMD
<b>Article code</b>	SBFL576361	SBFL576372
<b>Flexing diameter (mm)</b>	60	50
<b>Bottom finish</b>	Low noise, impregnated fabric	Low noise, impregnated fabric
<b>Top profile</b>	M2 matt finish	A32 Fine rib
<b>Hardness topside (°Shore A)</b>	80A	40A
<b>Overall thickness (mm)</b>	2.20	2.80
<b>Weight (kg/m<sup>2</sup>)</b>	2.90	2.90

In a fast-changing landscape, we help to keep things moving efficiently.

Friction reducing Energy Saving Belts are a key factor in the efficiency equation, but not the only one.
