

Chains and Conveyor Components

Welcome to Ammeraal Beltech's Chains & Components Range

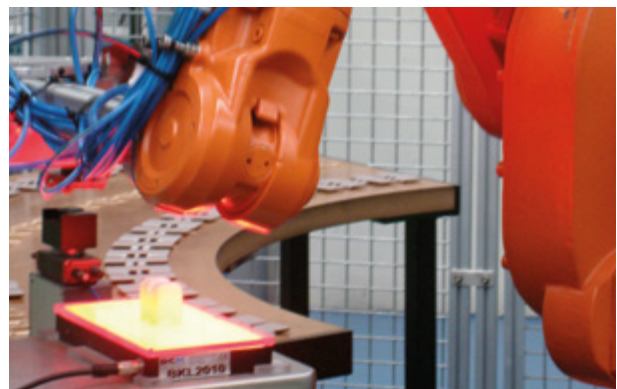

For more than 60 years, Ammeraal Beltech has been evolving to meet the needs of its customers.

Ammeraal Beltech specializes in the design, development and manufacture of belts, chains, guides and conveying system components, in stainless steel and other high performance materials.

Ammeraal Beltech serves a wide range of industries requiring product conveying solutions: manufacturers of bottling and packaging equipment, bottling plants and other industries such as glass manufacturing, automotive, cardboard, food, and printing.

Now spread across 5 continents, Ammeraal Beltech is proud of the fact that its clients continuously demonstrate their trust in them, thanks to its team of top professionals, by using the latest technology and industrial knowledge, its product quality and competitiveness and by offering the best possible customer service.

Ammeraal Beltech is Member of Ammega Group.

Use our Chains & Components E-Commerce...

The new e-commerce is the area reserved for customers to:

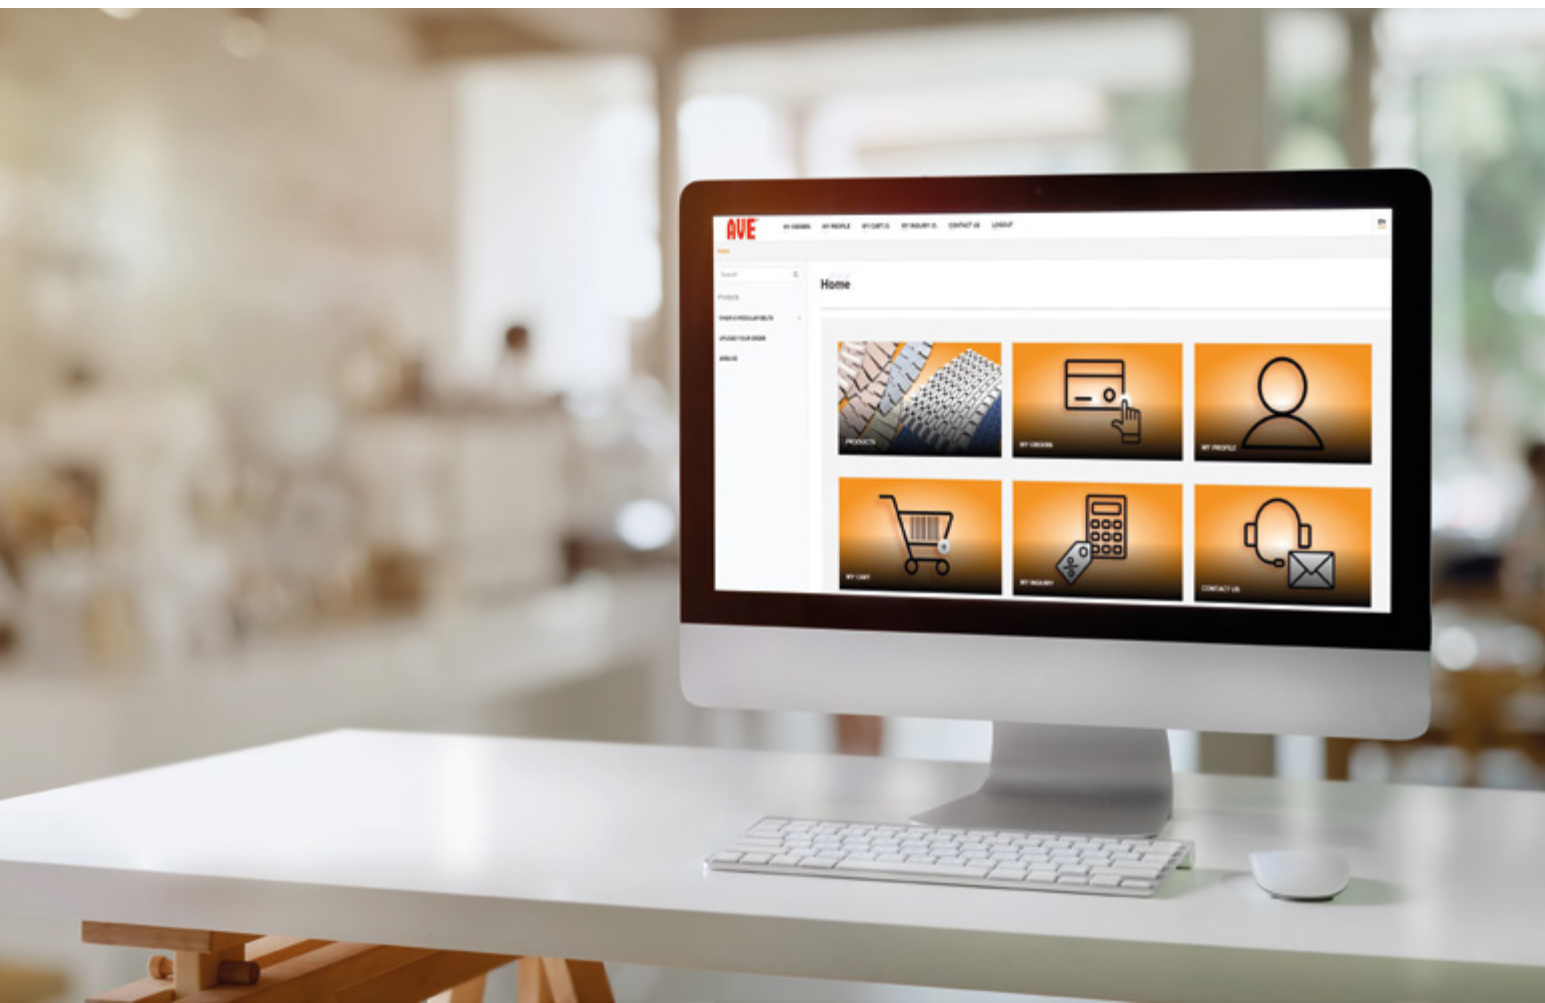

- download our 3D models and include them in their projects projects
- check standard products availability

Discover the advantages:

- **Updated in real time**, as it is directly connected to our production ERP system.
- **24/7** from any device (PC, tablet or smartphone) thanks to its new "full responsive" version.
- **Simple and intuitive** thanks to graphic restyling and new search features.
- **Transparent**: you can follow your order, view and download the documents at any time.
- **Fast and "time-saving"**: you can upload your order directly via xls file.

...and download our 3D models

Industries Served

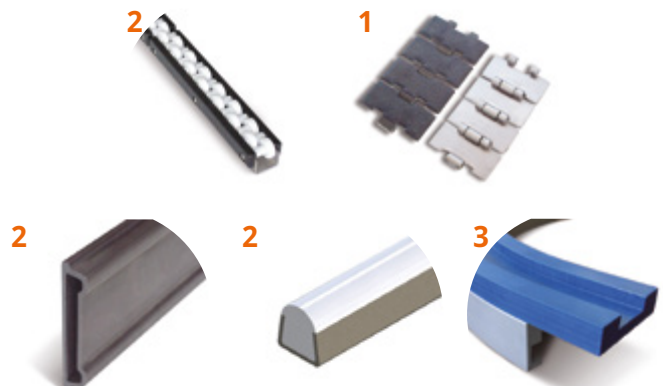

The Ammeraal Beltech's chains & components range includes radius and straight running modular belts, with closed or open surface; the stainless steel and thermoplastic chains (side flexing and straight running chains), LBP chains, snap on chains, multiflex chains, sprockets and all accessories to serve the main applications within the Food & Beverage, Packaging, Glass, and Automotive industries.

Beverage

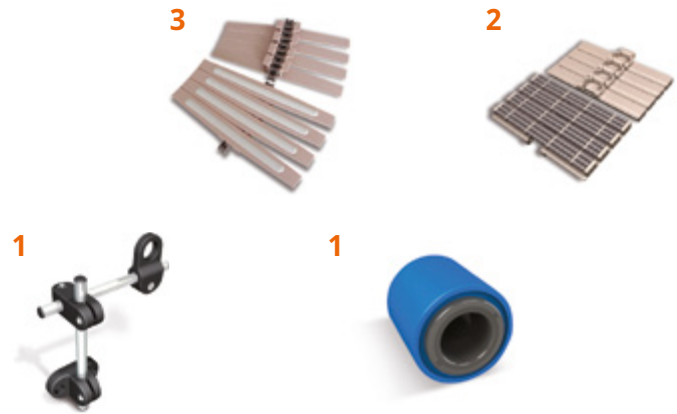

- 1 High-Tech Long-Life Stainless-Steel chains, with strengthened pins, optimum stability, extra flatness and reduced gap.
- 2 Side guides, roller guides, wear strips, brackets & accessories.
- 3 Curves & straight tracks. Extra performance & wear reducing materials.

Packaging

- 1 All kind of components and accessories for conveying lines, frame structures, levellers, bearings.
- 2 Accumulation BP chains to increase efficiency & reduce noise, equipped with pins, custom-made design with security locks.
- 3 Rubber top chains, high friction surface.

Bakery

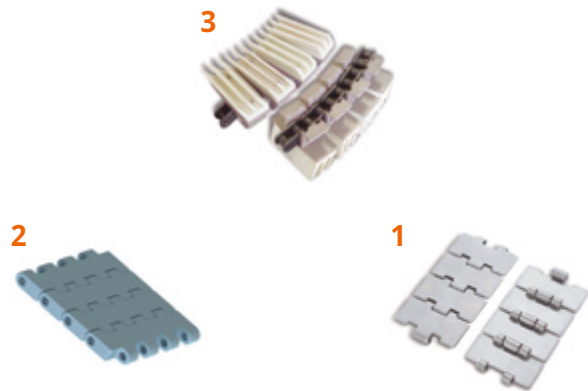

- 1 UHMW PE1000 sliding guides with added special lubrication, FDA approved, higher PV limits, improved wear resistance.
- 2 FDA approved thermoplastic chains and belts.
- 3 High temperature resistance thermoplastic chains and belts with specially designed components to reduce wear.
- 4 Spiral designed profiles.

Glass

- 1 High-Tech Long-Life Stainless-Steel chains, with strengthened pins, optimum stability, extra flatness and reduced gap.
- 2 Modular belts specially moulded in Kevlar.
- 3 Precision chains with rubber grippers in different shapes for different pressures depending on the products to be carried through carrousel. Good wear resistance & easy assembly spares.

Dairy

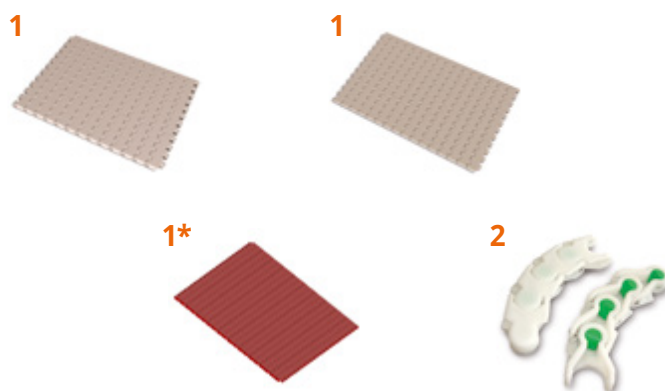

- 1 Tight radius thermoplastic chains.
- 2 Side guides, roller guides, wear strips, brackets & accessories.
- 3 Neck guides FDA approved, higher PV limit, improved wear resistance.

Automotive

- 1 Thermoplastic chains & modular belts, including heavy duty, carwash conveyors, tyre and rubber plants.
- 2 Added safety with finger protection system side flexing tight radius chains.

*Special metal detectable material

Poultry

- 1 Tray transport thermoplastic chains (straight and side flexing).
- 2 Thermoplastic modular belts and chains for packing areas.
- 3 Crate & box carrying chains.
- 4 Sprockets.
