

NEW

Ropanyl Premium Plus⁺

Raising Belt Standards in the Food Industry

Our highly regarded Ropanyl belts series now features a Premium Plus range.

Our new belts bring you all the classic advantages of Ropanyl and more – with our Premium Plus series, constructed with superior fabrics and a brand-new non-shrink treatment, we can help reduce system and maintenance costs while boosting output, supporting food safety and preserving the quality of your product.

Whether it's for food handling, knife-edge conveyors or a packaging line, our new Premium Plus belting solutions provide the answer.

Ropanyl Premium Plus:

- ultra-flexible
- easy tracking
- leading non-fray performance
- excellent release properties
- almost invisible joint
- shrink-less

costs

**Innovation and
Service in Belting**

Ropanyl Premium Plus gives you the advantage

Your conveying solution is at the heart of your business operation – with the Premium Plus advantage, you can keep it running more efficiently, more productively and more economically.

Flexibility – because our Premium Plus belts are so flexible, there's less tension and strain throughout the conveying system. This reduces requirements and costs for both energy consumption and structural hardware, cuts down on component wear and increases belt life.

Easy tracking – the new generation of Premium Plus are made with strict tolerances on thickness and straightness able to obtain good tracking during installation in a short time.

Durability – our Premium Plus non-fray technology means our Ropanyl belts are stronger and tougher than ever, so they run longer, remain intact longer and deliver even better food hygiene by reducing fabric fray contamination.

Shrink-less – Premium Plus belts are specially designed and manufactured to reduce the risk of shrinkage and maintain optimal tracking, even under the most demanding food industry conditions, so that your conveyor system continues to run smoothly and efficiently.

Non-stick – the Premium Plus matt finish surface delivers excellent release properties for even the most challenging materials. Its non-stick properties ensure cleaner and extra-smooth transfers at all knife-edge points, safeguarding your product quality and cutting down on belt cleaning time.

Almost invisible splice – new belt recipes are made with top covers and innerlayer colours that result in an almost invisible splice.

Ammeraal Beltech's new Ropanyl **Premium Plus Belts** meet or exceed the strict hygiene requirements of the food industry.

Work with the best!

Technical data - Ropanyl Premium Plus Belts

Item code	Top cover	Fabric	Tension / number of plies	Bottom impregnation	Top cover thickness	Top color	Additional
576410	Ropanyl	ESM	5/2	00	+ 015	white	AS FG NF
576429	Ropanyl	ESM	5/2	00	+ 015	white	M1 AS FG NF
576750	Ropanyl	ESM	5/2	00	+ 015	light blue	AS FG AM NF
576749	Ropanyl	ESM	5/2	00	+ 015	light blue	M1 AS FG AM NF

AS = antistatic, FG = food grade (FDA & EC), M1 = fine matt finish, AM = antimicrobial, NF = non-fray

Fraying / durability test results obtained after identical laboratory tests:
