

uni ULB

The Revolutionary Ultra Light Modular Belt

**Innovative, High-performance
General Conveying Belt.**

uni Modular Belts provide a wide range of industries with outstanding modular conveyance solutions – now, we can offer even more.

Ammeraal Beltech is proud to present the uni ULB (Ultra Light Belt), a lightweight Modular Belt that is Food Safe. The uni ULB offers impressive performance at a remarkably light belt-weight; it's an economical alternative to heavier and more expensive belts. What's more, it's easy to operate, to maintain and to clean.

Whether it's in the Food Industry, where its hygiene and easy-clean features make it a stand-out, or in other industries where it is exceptional durability along with its fast and easy mounting that drives its appeal, the uni ULB has a unique place among belting solutions.

The new uni ULB – best and lightest in class.

The uni ULB is a remarkable innovation; there's no other ultra light weight belt like it available in the market

Want to know more?

Get in touch with your nearest Ammeraal Beltech sales office or visit **www.ammeraalbeltech.com** to find your local service center, and we'll be glad to help.

The uni ULB will lighten your load and carry it too!

Why pay for more weight than you can use? Your conveying solution should give you just what you need. With the uni ULB, you can cut down on capital investment costs and power consumption while maintaining the highest standards of performance.

Revolutionary construction

- First ultralight belt capable of carrying loads up to 2205 lbs on a standard 39.4 inches width
- Lighter weight for significantly more competitive cost
- Durable design ensuring a long service life
- No *tension force* required during set-up or adjustments during operation for maximum running time
- More manageable to handle than standard belts during mounting and dismounting, less demand on your workforce

Food Industry favorite

- Top Food Safety features & standards, hygienic design and white and blue colors
- "Exposed pin" design for quick and easy wash-down
- Semi-closed hinge construction stops food accumulation when belt flexes at the sprocket

The Environmental Belt

- Lighter weight – lower power consumption and a smaller carbon footprint
- Easy-clean features – less water consumption and less cleaning fluid use
- Long service life and its recyclable core materials – outstanding cradle-to-cradle credentials

The best-in-class uni-chains hinge system keeps belt maintenance simpler and easier.

The uni ULB cleans up quickly and easily, saving water and time.
